SELECT GOAL ▾
COMPONENTS ARE ORGANIZED INTO FOUR DIMENSIONS

**STATUS**

- Name: Name of the component
- Description: Description of the component
- Score: Score obtained for the component

**RESILIENCE**

- Name: Name of the component
- Description: Description of the component
- Score: Score obtained for the component

**PRESSURES**

- Name: Name of the component
- Description: Description of the component
- Score: Score obtained for the component

**TREND**

- Name: Name of the component
- Description: Description of the component
- Score: Score obtained for the component

Producing the Goal Score

The goal score is a composite measure that takes into account the components' statuses, resilience, pressures, and trend. This score helps to understand the overall health and performance of the system.
