OVERVIEW

OHI+ = INDEPENDENT ASSESSMENTS AT ANY SCALE

The OHI+ assessments were conducted by independent groups that are not tied to any other entity. They were designed to assess OHI+ in a neutral and comprehensive manner, providing insights into various aspects of OHI+ that are not influenced by other factors.

Independent assessments are crucial for the global assessment, as they offer a perspective that is independent of any other entity. This ensures that OHI+ is assessed in a neutral and comprehensive manner, providing insights into various aspects of OHI+ that are not influenced by other factors.

WHY CONDUCT AN OHI+ ASSESSMENT?

To conduct an OHI+ assessment, you need to identify the key stakeholders and their interests. You should also consider the potential risks and benefits of the assessment. It is important to ensure that the assessment is conducted in a neutral and comprehensive manner, and that the results are transparent and accessible to all stakeholders.

Assessment results can be used to identify opportunities for improvement and to inform policy decisions. They can also be used to promote awareness and to encourage action.
