OVERVIEW

OHI+ = INDEPENDENT ASSESSMENTS AT ANY SCALE

Independent assessments are an essential part of the global assessment. Our libellite to the availability of natural resources, climate change, and other crises, the need for independent assessments is more urgent than ever. This is because the assessment process serves as a form of social accountability from multiple backgrounds (nongovernmental, field surveys, private sector, volunteers, etc.) to discuss the trajectory of our sustainability and biodiversity. These assessments help to create an independent assessment of natural and cultural resources.

**OHI+ ASSESSMENTS BY YEAR INITIATED**

Below is a list of all OHI+ assessments by year. Click on the links for more details.

<table>
<thead>
<tr>
<th>Year</th>
<th>Assessments Initiated</th>

WHY CONDUCT AN OHI+ ASSESSMENT?

Conducting an OHI+ assessment at any scale can help you:
- Identify the scale and scope of your assessment
- Determine the scale and scope of your assessment
- Identify the best way to conduct the assessment
- Determine the best way to present the results
- Identify the best way to present the results
- Identify the best way to present the results

Assessment provides a valuable tool for understanding our natural and cultural resources. By conducting an OHI+ assessment, you can:
- Understand the scale and scope of your assessment
- Determine the best way to present the results
- Identify the best way to present the results
- Identify the best way to present the results

WHY OHI-SCIENCE.ORG TO GET STARTED

To learn more about OHI-Science.org, visit their website at [OHI-Science.org](http://OHI-Science.org). This website provides information about the assessment process, the benefits of conducting an OHI+ assessment, and resources for conducting your own assessment.
