### OVERVIEW

**Overall Score**

- **Score:** 95

**Likely Future State**

- **Score:** 11%
- **Score:** 10%

### GOAL EVALUATION

Goal is to have 95% of goals met.

### GOAL SCORE COMPARISON

Graph compares goal scores and overall scores per year for 2016-2019. Note: Data for the 2020-2019 years is not included because no scores are available for 2019 and 2020.

### DATA

1. The monthly score reports the average of the scores for each of the 12 years.
2. Scores are the average score for each goal and year.
3. All scores are on a scale of 0 to 100.
4. Click on a goal to learn more about it.

|                 | Mollweide        |

**View Maps For Goals**

Maps are plotted as the national summary score (NPS) for each country and area. The area within each country's score reflects the number of countries with multiple environments. Countries with NPS 30 or greater have been grouped based on equality, defense, security, and social goals. When a map is opened to a specific region, the area that includes that goal is not included in the region's national index score.
