OVERVIEW

The overall score and likely future state are based on the average of the scores and percentages for each goal.

GOAL EVALUATION

The goal evaluation section displays the scores and percentages for each goal.

GOAL SCORE COMPARISON

The goal score comparison section shows the scores and percentages for each goal over the years.

DATA

The data table provides the scores and percentages for each goal over the years.
The distribution of the world's estimated coastal and marine protected areas (CPAs) as of 2019 is shown in the map. CPAs are areas that are legally protected, managed, and monitored by a marine or coastal authority. The map is interactive and allows users to view maps by region, projection, and other filters.

View Maps for Goals

When viewing a specific goal, the map highlights countries that are making progress towards meeting that goal. The goal in focus is highlighted in blue to show progress towards a specific target.
